

DIONE RAZE ORO

Davao City, Philippines 0977 441 4516 | dioneoro11@gmail.com LinkedIn | Portfolio

Professional Summary

AI Automation Specialist and Low-Code Developer focused on building AI-powered workflow systems, automations, and operational dashboards using n8n, Make.com, Zapier, APIs, and AI models like Claude and GPT.

Experienced in designing end-to-end systems for lead qualification, booking automation, CRM operations, customer intake, and AI-driven support workflows. Combines executive virtual assistant experience with automation engineering to reduce manual work, improve response times, and streamline operations.

Core Skills

AI Automation n8n, Make.com, Zapier, AI Agents, Webhooks, API Integrations, Claude AI, OpenAI/GPT, Workflow Automation

CRM Operations GoHighLevel (GHL), HubSpot, Zoho CRM, Lead Management, Pipeline Automation, SOP Documentation, Inbox Calendar Management

Development Low-Code Next.js, Vercel, Supabase, React, Tailwind CSS, TypeScript, Dashboard Systems, SaaS UI Prototyping

Tools Google Workspace, Airtable, Google Sheets, Notion, Slack, ClickUp, Trello, Calendly, Zoom, Microsoft Teams

Featured Projects

WhatsApp AI Booking Inquiry Agent *Tech: n8n, Twilio WhatsApp API, Claude AI, Google Sheets*

- Built a 24/7 AI-powered booking and inquiry assistant for handling reservations, cancellations, complaints, and customer inquiries.
- Implemented intent detection and automated response routing.
- Stored customer and booking data automatically in Google Sheets.
- Added escalation workflows for complex support requests.
- Reduced response times to under 30 seconds.

AI Voice Receptionist Dynamic Appointment Manager *Tech: n8n, AI Voice Systems, Airtable, Calendar APIs*

- Built a production-grade autonomous AI receptionist with webhook/API endpoints for real-time appointment workflows.
- Implemented availability checking, booking, rescheduling, updates, and cancellation flows.
- Added conflict detection and automated validation to prevent double-bookings.
- Stored call recordings and metadata automatically in Airtable.
- Designed 24/7 scheduling workflows without human intervention.
- Reduced routine scheduling workload by 90–100

AI Webhook Agent Customer Intake Automation *Tech: n8n, APIs, Claude AI, Airtable/Google Sheets*

- Built an autonomous intake system that captures and classifies customer inquiries in real time.
- Extracted structured customer data automatically using AI.
- Connected workflows to CRM systems and automated follow-up emails.
- Designed production-style workflows with error handling and webhook routing.

BookWise – Booking Reservation System Live](<https://bookwise-pro.vercel.app/Live>) Demo

- Developed a reservation and scheduling platform for service-based businesses.

- Built customer booking flows, admin dashboards, availability management, and calendar systems.
- Designed UI/UX for streamlined booking experiences.
- Implemented workflow logic for time slots and reservation tracking.

Automation Operations Dashboard (SaaS Simulation) Live](<https://flowmetrics-saas-sim.vercel.app/dashboard>) Demo

- Created an internal operations dashboard for monitoring workflows, KPIs, triggers, and automation performance.
- Designed dashboard interfaces for workflow visibility and operational reporting.
- Simulated SaaS-style analytics and automation management systems.

Customer Intelligence Dashboard *Tech: Next.js, Vercel*

- Built a customer analytics dashboard displaying churn risk, customer health scores, and operational metrics.
- Structured customer-level reporting systems and KPI visualization.
- Designed scalable dashboard architecture for future API integrations.

TripGenie – AI Travel Planner App *Tech: Base44, AI Integration*

- Developed an AI-powered itinerary planner with trip organization and budgeting features.
- Designed travel-focused UI systems and automation-driven planning workflows.
- Built structured trip management interfaces for travelers.

Experience

AI Automation-Focused Executive Virtual Assistant

Freelance / Independent Contractor – OnlineJobsPH October 2025 – Present

- Built workflow automations for scheduling, lead tracking, CRM updates, and follow-ups.
- Managed executive calendars across multiple US time zones.
- Designed and optimized GoHighLevel CRM workflows.
- Automated inbox organization and response handling processes.
- Coordinated 15–25 meetings weekly using automated scheduling systems.
- Created KPI dashboards using Google Sheets and Excel.
- Documented SOPs for scalable business operations.
- Maintained high data accuracy across operational systems.

Certifications

- Google Data Analytics Professional Certificate (2025)
- Microsoft Office Specialist: Excel Associate (2025)
- Digital Marketing Certification – HubSpot Academy (2025)
- Administrative Professional Foundations – LinkedIn Learning (2025)

Additional Information

- Open to remote full-time, freelance, and contract roles
- Experienced working with US-based teams and clients
- Strong understanding of AI-assisted development and rapid prototyping
- Comfortable building end-to-end systems from concept to deployment
